Community

Community reach of 600k

250 markets engaged monthly

1k new partners monthly

60% of pro linguists have been with us 10+ years

Wellness support for our community

Services

○ **Development Support**
- Multilingual prompt engineering
- Prompt response and rewriting
- RAG optimization and pattern support
- Model review and assessment
- Red teaming and adversarial training
- Local market optimization and cultural enhancements

○ **Data Annotation**
- Audio, video, text content classification
- Text, image, video annotation
- Emotional capture
- Sentiment analysis
- Content moderation
- Text summarization
- Named entity recognition and linking

○ **Data Collection**
- Audio, video, text Datasets
- Content Curation
- Text-to-speech and speech-to-text
- Translation
- Taxonomy development
- Intent utterance creation

○ **Output Validation**
- Intent development and review
- Model output validation and ranking
- Geolocation validation and relevance
- Diversity and inclusion testing
- Output fact and relevance testing
- Search, product, and ad relevance

○ **Workforce Management**
- AI product testing
- Secure facilities
- Computational linguistics
- Data and ML engineering
- Global community resourcing
- Subject matter specialization

AI Data Workflow

○ **Define Project Scope:**
- Set goals for outcomes
- Evaluate ROI
- Data requirements

○ **Data Preprocessing and Relevant Consideration:**
- Data collection
- Data validation
- Data classification

○ **Reinforcement Learning:**
- Prompt engineering
- Data QA and adjustments

○ **Evaluating and Monitoring AI Model(s):**
- Testing
- Identify deficiencies

○ **Model Optimization and Deployment:**
- Fine-tuning
- Automation
- Output validation
- Identify deficiencies
