eLEARNING

Create More Engaging Learning Experiences in Every Language

Lionbridge's eLearning services provide a one-stop shop for all your eLearning creation and localization needs. We can help your organization reach its training goals faster. Use these services to create learning experiences that will fully engage your users.

How would you like to accomplish your organization's learning goals faster? It's not easy. Training managers must deal with learners' lower attention spans and higher expectations for entertaining training experiences. Learners are shifting towards lifelong learning while becoming oriented to outcomes. This situation creates new challenges for training teams. Partner with Lionbridge's eLearning teams to achieve all your training goals and gain a competitive edge in a highly competitive and digitized marketplace.

LIONBRIDGE

Why Use Lionbridge eLearning Services?

Get Support for the Full Content Lifecycle

Lionbridge eLearning services support the full content lifecycle, from course design to development, localization, and delivery. Benefit from Lionbridge's experience and best practices in eLearning to reach your organization's goals faster.

Use Any Platform and Technology

Lionbridge eLearning services are technology agnostic. Our teams can support any platform or technology that is compliant with Sharable Content Object Reference Model (SCORM) standards. This gives you the flexibility to choose the solution that works best for your organization.

Capitalize on an Unparalleled Translation Community

Lionbridge eLearning services give you access to Lionbridge's unparalleled translation and expert community. These language specialists will give your training teams the scale and skills needed to deliver multilingual training content. Our graphic and instructional designers, along with desktop publishing teams, will help you design and publish highly effective training content.

Experience the Ease of a One-Stop Shop

Lionbridge eLearning services teams have a breadth of experience, not only in eLearning course localization but also with course creation and informational design. Our experts can work alongside your training and eLearning teams to design courses that will help your organization reach its learning goals.

Leverage the Latest Technological Innovations

Lionbridge eLearning services teams are sought out by some of world's leading organizations. These teams design next-generation learning experiences, leveraging their expertise in the latest developments of Augmented Reality (AR) and Virtual Reality (VR) to fully engage learners and focus them on their learning goals.

Achieve High Performance Through Defined Training Goals

Lionbridge eLearning services teams can partner with your training teams to define learning goals and build solutions that meet those goals and promote positive performance. Lionbridge is one of the few providers that can deliver this service.
